# RECONSTITUTED VENEERS

## Reconstituted Bamboo

*Bamboo veneer comes in carbonized, typically a caramel brown to a darker coffee brown color, and natural, typically a pale yellow to a light olive cream color. This eco-friendly wood is a very common and extremely fast growing type of grass that is very strong and flexible.*

Bamboo AG-28

## Reconstituted Ebony

*As a kind of environmentally friendly new decorative wood veneers,ebony recon veneer is widely used for wood furniture, door skin,cabinet,engineered flooring, veneered panels manufacturing,wood profiles, hotel decoration and other interior decoration.*
